

GENERAL ENGAGEMENT IS IN PROGRESS

TOKIO, October 11, 4 p. m.—It is reported that the Russians have crossed the Hun river in heavy force and are aggressively attacking the Japanese forces which were moving northward. A general engagement is said to be in progress.

STRANGE CASE IN COURT.

Two Women Claim Man as Their Husband Before Judge.

Two women, Mrs. Bessie Amperro of 1214 Clay street, and Mrs. Kestine Jacobson, who also says her name is Amperro, were in the Police Court this morning both claiming the same husband. One was there as a prisoner and the other as a complaining witness. One was more than ordinarily pretty. The other was not.

Mrs. Jacobson, or Amperro, as she prefers to call herself, was arrested at the instance of Mrs. Bessie Amperro, who says she is the real wife, on a charge of disturbing the peace. Mrs. Jacobson had said she was coming to Oakland to take up her residence with her husband despite the fact that another woman was installed as mistress of the home.

This morning in the Police Court Mrs. Jacobson, who is on the shady side of 40, sat in the Police Court looking worn and tired. When the charge of disturbing the peace was read she vehemently pleaded not guilty, and said when she called at the residence at 1214 Clay street, she was merely coming home to the husband who had cruelly deserted her for a younger and more comely looking wife.

ILL IN THE DOCK.
The woman occupying the dock was so ill that after rising to plead not guilty she sank back exhausted. The only thing which seemed to sustain her was her hatred for the other woman, who was in the court-room as her accuser.

Mrs. Bessie Amperro, who believes the other woman to be a demerol addict, has been working on the defendant's brain for many months.

"This woman," she said, "broke up my home in San Francisco. She has driven my husband and myself from place to place. We have no rest. There is nothing in the story that she is my husband's wife. Six months ago I had her arrested in San Francisco because she brought her trunk to our home and insisted on residing there. She could not be persuaded to leave. She wanted to fight with me. There was only one thing which could be done. That was to arrest her. At that time the papers were full of the story. It was proven then that this woman had never been connected with my husband in any way except that she had known him for many years and had become imbued with the strange fancy that he was her husband.

TO BRING HER TRUNK.
"When she came to my home yesterday she had already sent word that she was going to bring her trunk. She wandered into the yard and started to pick flowers. I tried to persuade her to leave but she attacked me. I then sent for Policeman Tobin. He arrested her.

"She has followed us wherever we have gone until she has nearly made life a burden. We cannot hide anywhere that she does not follow us out."

The other woman was ill. She claimed she had been cheated out of her husband. She said the younger and prettier woman had come between her and the man whom she had loved for. She could not give dates of the marriage or any corroborative facts, owing to her weak condition. As she staggered from the court-room she would have fallen had it not been for another prisoner catching her. As soon as she was placed in her cell a physician was immediately sent for. She is pronounced to be a very sick woman. She is suffering from a total collapse and nervous breakdown.

Police Judge Smith set her trial for October 19.

MILNER RESIGNS.

LONDON, Oct. 11, 6 p. m.—Lord Milner has resigned the High Commissionership of South Africa on account of ill-health, brought about by the prolonged strain in grappling with the situation which is daily becoming more difficult, owing to the financial and racial troubles of the country.

STEADILY PUSHING FORWARD.

Kuropatkin Will Press Japs on All Sides.

ST. PETERSBURG, October 11 (6:11 p. m.)—No official news has been received from the front as to what is happening to-day. But a portion of General Kuropatkin's dispatch dated last night, given to the public, showed that his army was steadily pushing forward and that the Japanese were gradually withdrawing their posts, which were only a cannon-shot distant. There have been almost constant artillery skirmishes, which at any moment may develop into a battle. There is no confirmation of the Japanese evacuation of the Yentai mines, but the report is credited at the War Office.

Field Marshal Oyama's front has been rapidly narrowing during the last few days, under the pressure of the Russian advance and now does not exceed twenty miles, extending from the Yentai mines westward beyond the railroad.

When the Japanese concentration is effected, a counterattack is likely to be the signal for a series of battles.

If the Russians are victorious the ultimate issue is expected to be decided within the mountainous triangle formed by the Yentai mines, Liao Yang, and Shiyantun, which constitute the fortified Japanese positions.

A flood of telegrams is being sent to Kuropatkin from all parts of Russia, congratulating him on the assumption of the offensive.

DOES NOT WANT HER SON TO MARRY

In an effort to stop the marriage of her son, whom she says is but 18 years of age, Mrs. Alice Bristol of 552 Minna street wrote the following letter to County Clerk John P. Cook this morning:

"Marriage License Office—Kind Sir: I would like to inform you that if my son, William Bristol, should apply to your office for a marriage license to marry to give it to him, as he is only 18 years old and the girl only 16. Her name is Hannah Bench. I am his mother and refuse to allow him to marry at that age, as he cannot support himself.

"Hoping you will grant me this favor, I remain, very respectfully,
"ALICE BRISTOL."

The letter is awaiting the young man should be put in an appearance with his youthful bride, and as neither are of age they will be refused the license.

WASHINGTON, October 11.—One of the subjects brought before the Cabinet meeting to-day was the protest against the seizure of American mail on the Russian steamer Calchas by the Russian Vladivostok fleet.

Postmaster-General Wynne presented the protest from Dodwell & Co., representing the steamship line, and also data collected by the Postoffice Department to show that American mail was on the ship.

These papers were transferred to the

JAPANESE LOSE A GUNBOAT.

Strikes a Mine and Crew Said to Be Lost.

TOKIO, Oct. 11, 3 p. m.—The Japanese gunboat Hai Yen struck a mine in Pigeon Bay west of Port Arthur, September 18th, and sank. Only four of her crew were rescued.

The loss of the armored gunboat Hai Yen was announced today and permission was granted by the authorities to publish the details of the disaster.

The Hai Yen struck a mine off Pigeon Bay on the night of September 15th and foundered. Nearly three hundred persons, her entire complement, were drowned. Two petty officers and two sailors managed to reach Chiao-pai Island, from which they were rescued. The Hai Yen, which was engaged in guard duty off Pigeon Bay, was misused by the fleet and a search for the vessel was immediately begun.

The petty officers and sailors found on Chiao-pai Island reports that at dusk on September 18, a storm came up accompanied by high seas. The Hai Yen endeavored to return to her base when she suddenly struck a floating mine, which exploded under her starboard side amidships. The vessel began to sink and an attempt was made to lower the boats. The boats were swamped and the crew jumped into the sea, where owing to the heavy combbers, they were quickly drowned. The Japanese fleet carefully searched the patrolled locality but failed to find any other survivors.

One account of the disaster issued today says: "It is highly regrettable that no report in any form has been received of the fate of the other survivors. The sad event was made worse on account of the weather which must have added greatly to the awful result caused by the explosion of the mine."

The Hai Yen's complement was three hundred officers and men. Eleven of the crew had previously been detached for special duty.

RAINFALL.

During the last twenty-four hours 1.10 inches of rain has fallen, making 7.54 inches for the season, as compared with 55 inches at the corresponding date last year.

RUSSIANS ARE IN TOUCH WITH JAPS.

AN ANCIENT CUSTOM OF WAR: GENERAL KUROKI AND HIS STAFF SALUTE THE DEAD.

Report That There is Fighting all Along the Line.

Dispatches from both Russian and Japanese sources today leave little doubt that the armies of Oyama and Kuropatkin are now closely engaged, but rather the extent nor the exact location of the battle are known.

Tokio hears that the Russians have crossed the Hun river in force and are aggressively attacking the Japanese.

The same dispatch says the Japanese recaptured a position previously taken by the Russians, but the name of the place is not given. Tokio also reports that the Russian advance has checked and that the losses on both sides have been heavy.

St. Petersburg reports that Oyama's front has been rapidly narrowing during the past few days, under pressure of the Russian advance and that his entire force is now north of the Taitsa river, covering a front not exceeding twenty miles. The point of the Japanese concentration is not definitely known beyond the general statement that their lines stretch from the Yen Tai mines westward to the railway.

Tokio officially announces the loss of the armored gunboat Hai Yen, which struck a mine off Pigeon Bay on the night of September 18, foundering with nearly her entire crew of 300 officers and men.

RUSSIANS RETREATED ACROSS THE SCHILLI RIVER (about half-way between Mukden and Liao Yang), but this morning they re-crossed the Schilli and a desperate fight is now in progress six miles north of Yentai.

WOMAN SENT TO AN ASYLUM

Mrs. Mary Hansen, a Danish lady, 61 years of age, was committed to the Stockton Insane asylum this morning. According to the statement of her husband P. Hansen, a night watchman at the University of California, she attempted to burn herself with papers she had set on fire on the stove a week ago. He says she is a spiritualist and believes she is possessed of a devil of which she tried to rid herself. He broke down and cried when called upon to testify against her, but said that he believed that she was dangerous to be at large. Their home is on Second street near University avenue in Berkeley.

MUKDEN, October 11.—The Japanese assumed the offensive yesterday and the

STABBED IN THE STREET.

Sixteen-year-old Girl is Victim of Brutal Assault.

SALT LAKE, Utah, October 11.—Mary Burton, a 16-year-old school girl, daughter of a prominent stock broker, is the victim of a serious assault by an unknown man, who threw his arm around the girl's neck from behind and cut a gash four inches long in her throat.

The attack occurred on Main street, between First and Second South, the busiest part of the business district and so sudden was the attack on the girl and so quietly was the deed perpetrated, that although the street was crowded, no one's attention was attracted and the would-be murderer escaped before the frightened girl could make an outcry.

She was helped to a physician's office, where it was necessary to take several stitches in the wound in her throat.

The police are absolutely at sea. So far as known Miss Burton never had romance, has no enemies, and the police are inclined to the belief that the knife was wielded by an insane man.

WALTER LEIMERT RESIGNS.

LEAVES BANK TO GO WITH THE REALTY SYNDICATE.

Walter H. Leimert, who has been connected with the Oakland Bank of Savings for the past twelve years, has presented his resignation as loan teller of the bank, to take effect on November 1.

Mr. Leimert, after that date, will be associated with Wick Havens in the management of the Oakland office of the Realty Syndicate.

Mr. Leimert is well known in banking circles in both Oakland and San Francisco. He has been a careful student of finance and during his service in the Oakland Bank of Savings he made a large circle of friends.

RAIN RUINS THE BEAN CROP.

SANTA MARIA, October 11.—It has been raining at intervals every day for the past week, with no signs of clearing.

The persistent dampness has ruined about three-fourths of the entire bean crop, resulting in a loss of several hundred thousand dollars.

However, the rain is not without its blessing. There had not been a good soaking of the ground since 1890 and present indications are that the soil will be in better condition for next year's crops than for years past. Feed is abundant.

TALK OF DIVORCE LAWS.

Churchmen Take Up Important Issue in Convention.

BOSTON, October 11.—The proposed new canon on marriage and divorce was on the order paper for discussion when the triennial general conference of the Episcopal Church resumed its session this morning.

The Archbishop of Canterbury who will leave Boston tomorrow, appeared at the convention for the last time.

At the conference by the woman's auxiliary on "The Training of Missionaries" Bishop William Hobart Hare of South Dakota made an address.

UNITED STATES.

In the House of Deputies a discussion occurred as to whether the term "in the United States" meant that territory between the Atlantic and Pacific. It included the insular possessions as well. The disputed point was finally referred to the Committee on Constitutional Amendments.

MARRIAGE AND DIVORCE.

The Committee on Canons, in charge of the proposed new canon on marriage and divorce, submitted a lengthy report through its chairman, Rev. Dr. F. B. Davenport of Memphis, Tenn. This present canon on the question permits the remarriage of the innocent person in a divorce case wherein a decree was issued by the civil courts on the ground of insanity. There has been considerable dissatisfaction over this canon, many clergymen favoring a law to prevent the remarriage of any divorced person while the former partner is living.

The majority of the committee appointed at the last convention to report on the subject favored this idea.

RECOMMENDED CHANGES.

They recommended the following amendments: "If any minister of this church shall have reasonable cause to doubt whether a person desirous of being admitted to holy baptism or to confirmation, or to the holy communion has been married otherwise than as the word of God and discipline of this church allow, such minister, before receiving such person to the holy communion, shall refer the case to the highest civil authority existing thereupon; provided, however, that no minister shall, in any case, refuse the sacraments to a penitent person in immediate danger of death, nor to any person who shall solemnly aver that he or she was the innocent party in a divorce for the cause of adultery."

RE-MARRIAGE.
"No minister shall solemnize a marriage between any two persons unless, by inquiry, he shall have satisfied himself that neither person has been or is the husband or the wife of any other person then living, from whom he or she has been divorced for any cause arising after marriage."

"If any question shall arise under this canon in a diocese or missionary jurisdiction in which there is no bishop, such questions have been referred shall there-to be designated by the standing committee and the bishop to whom such questions shall be referred shall thereupon make inquiry in such manner as he shall deem expedient and shall deliver his judgment in the premises."

The report was signed by Chairman Davenport, Rev. Dr. J. E. Eccles of Baltimore; Rev. Dr. John Fulton of Philadelphia; Rev. Dr. George M. Fluke of Providence; D. E. Lyman of Boston; W. M. Lightner of Minnesota; F. T. Stetson of New York; Charles G. Saunders of Boston; C. H. Stanley of Washington and F. A. Lewis of Washington.

CIVIL COURT.

A minority report signed by Dr. J. Lewis Parks of New York; Rev. Henry Nardo of Cambridge, Mass., and R. H. Battle was presented as follows:

"Questions touching the fact of any case arising under this canon shall be determined by the record of the civil court, which adjudged the divorce, a copy of which, under the seal of said court, shall be furnished the minister requested to solemnize the marriage."

The effect of the minority report, if adopted, would be to leave unchanged that part of the old canon permitting remarriage of the innocent person in a case of insanity. The minority, however, desired to provide for greater safeguards in the shape of civil court testimony, when "innocent persons" who have been divorced desire to be re-married.

After the presentation of both reports a discussion ensued as to the method of procedure.

After some debate it was voted to consider the proposed amendment providing the re-marriage of divorced persons.

The night against the amendment was opened by Rev. Dr. Parks of New York.

ODORS FROM S. P. ENGINES.

George W. Reed Testifies in Favor of the City.

The hearing of further testimony in rebuttal of the charges made against the garbage crematory was continued this morning in Judge Ellis' court. The suit brought by Leonard Vinci against the city of Oakland and the Pacific Incinerating Company to stop the operations of the crematory established at Twenty-second and Wood streets has progressed to the point where nearly all of the testimony denying the charges made by Vinci that the crematory is a nuisance, is about all in.

Attorney George Reed and vice-president of the Pacific Incinerating Company was called to the stand this morning and spent several hours under cross-examination. He was called by Attorney Goodfellow and Lincoln Church to testify in favor of the crematory and despite the questioning of Attorney Vinci the facts to which he testified were not to be shaken.

One of the points upon which Vinci has been insisting throughout the trial of the case has been that all the incinerated garbage has been used to add to the heat and help in the destruction of the garbage. This, he has claimed, has given off an odor which is often felt in the city.

In answering questions propounded by Attorney Vinci, Reed stated that the odor came from the passing engine of the Southern Pacific Railway, and that when these passed anywhere along the tracks, they gave out volumes of smoke, they gave out heavy clouds of burning oil. He told of a drive he took out to the cemetery and said that three different engines in passing gave off the same smoke. He maintained that if there was any smell of burning oil the engines were responsible rather than the crematory, which has specially equipped chimneys.

In regard to the dumping of garbage, Mr. Reed stated that the crematory was being filled with the ashes and clinders from the garbage, and that some stable cleanings had been scattered out over another part of the land but he denied that anything further than this had been deposited on land belonging to the crematory.

It was maintained that there was a smell from the crematory that would extend to the houses beyond, and his statements could not be successfully refuted.

OPERATIONS NOT ALWAYS NECESSARY.

Doctors Frequently Mistaken.

"I suffered under agony with piles for over three years. Two doctors told me nothing but an operation would cure me. I tried different ointments, but nothing did me any good until I used Pyramid Pile Cure. I bought six different boxes of the drug store, and now I can do my work and go out, where before I spent most of my time lying down. I thank God for giving the discoverer the knowledge to make such a cure. I recommend it to all my friends, and I ever have given it away. You can use this in any way you wish to make known the wonderful merit of Pyramid Pile Cure. Mrs. William Murphy, 31 Marshall Street, Elizabeth, New Jersey.

The experience of this lady is that of thousands of others who have been assured that nothing short of an operation would rid them of this distressing complaint. On the face of it, it appears as if too many surgeons operate in order that they may keep their hand in, and lose no portion of their skill, then, again, too many surgeons are anxious to experiment (like the scientific man in Mark Twain's pathetic story of the dog and her little puppy), and do not have proper regard for a patient's physical welfare or condition.

We advise every sufferer to think twice before submitting to an operation for piles, and suggest that those interested write to the Pyramid Drug Company, Marshall, Michigan, for their little book on the causes and cure of piles, which is sent free for asking.

FAIRBANKS IN IOWA.

Labor Must Look to the Republican Party.

COUNCIL BLUFFS, Ia., October 11.—Crossing the Missouri from Omaha early this morning, Senator Fairbanks made his first Iowa speech in the campaign at Council Bluffs before he had taken his breakfast. He was met at the railroad station by a large number of citizens, most of his auditors being men. Governor Cummins presided over the meeting and presented Senator Fairbanks, assuring him in doing so that Iowa would give him a larger proportion of their votes than any other State in the union. The Senator was received with loud cheers.

In his speech Senator Fairbanks complimented in high terms, his traveling companion, Judge Smith, who represents this district in Congress. He urged continued adherence to Republican principles.

"We are for the Republican party because the Republican party is for us," he said.

He continued by saying that more labor is employed today than ever before and argued that if this condition was to be continued the Republican party must be kept in power. He also referred to the diplomatic achievements of the present administration.

"Our diplomacy," he said, "is successful, because it is founded on eternal righteousness."

After concluding his speech Senator Fairbanks shook hands with the people. Judge Smith also made a brief speech.

In a few remarks Governor Cummins said he had been campaigning in the State for sixty days, and he expressed the opinion that not only all the Republicans but many Democrats would vote for Roosevelt and Fairbanks.

GREAT PROSPERITY.

LOGAN, Iowa, October 11.—As Senator Fairbanks' train pulled out of Council Bluffs, an old veteran proposed three cheers for Old Indiana and the proposition was responded to with the loudest cheer. Governor Cummins joined the party for the Iowa trip at Council Bluffs, as did also Chairman Spence of the State Committee, National Committee Chairman Hart and others.

In his speech here, Senator Fairbanks complimented Governor Cummins as brave, patriotic and level-headed. The Senator said that never before in the history of the country had there been as great prosperity on the farms and in the country as under the administration of President Roosevelt.

MRS. SINCLAIR'S COOKING CLASS.

Mrs. Joan Sinclair gave salads and beverages on Friday, October 7, at the cooking class of the New Century Club, held in the Cadet Armory Building, 610 Fifteenth street. Only two more of these lessons remain of the course, and it is hoped a large attendance will greet this successful exponent of cookery at each lesson.

The menu for the lesson on Wednesday, October 12, at the armory, will be as follows:

Prime corned, codded eggs, lemon sponge, soft custard, raw beef sandwiches, broiled mutton chops, flound fish, H. O. crisps, lemon whips, oatmeal, milk toast, snow pudding.

Menu for Friday, October 14.—Kedgeree, fish timbales, tomato rabbits, Shrewsbury cakes, New Orleans pudding, broiled beef steak, potato straws, and numerous relishes.

DAVIS ON THE STUMP.

Says He Owe His Nomination to Dave Hill.

BALTIMORE, October 11.—Henry G. Davis, Democratic Vice Presidential candidate, left Baltimore today on a ten-day campaigning tour of Maryland and West Virginia. He is accompanied by a large number of campaign workers, including ex-Senator D. B. Hill of New York, Senator Daniel of Virginia, ex-Governor Whyte of Maryland, General L. B. Baughman and others. The trip is to be a long one, as in a special train and the itinerary, as at present outlined, comprises nearly seventy-five speaking engagements, scattered over a distance of 1100 miles. Senator Gorman was to have been one of the party, but he changed his plans yesterday.

DAVIS TALKS.

BRUNSWICK, Md., October 11.—At Brunswick, Md., Davis, ex-Senator Hill and Senator Daniel made speeches. Mr. Davis briefly claimed Maryland as his native State.

Speaking of his nomination, he said, "I had no more to do with than you." "Turning to Mr. Hill, he continued, "I was selected by this distinguished friend, and I suppose I owe him a great deal for the trouble he has got me into."

Mr. Daniel told how Mr. Davis left Maryland fifty years ago as the conductor of a freight train.

"Now he is conducting another train made up at St. Louis and is heading with all steam on to Washington. There is a seat for every good Democrat on that train and Mr. Davis invites you all to ride."

The railroad town of Brunswick, Md., furnished an audience composed largely of railroad men, who were enthusiastic in their appreciation of the Democratic speeches of Messrs. Whyte, Hill and Daniel and the witty remarks of Mr. Davis.

Mr. Hill paid his respects to Mr. Davis, thanking him for his nomination and for his position as Secretary of Commerce and Labor to raise campaign funds for the Republican party. Speaking of the Democratic platform he said it had been approved by Governor Cleveland on the one hand and William J. Bryan on the other.

And when there is such a platform you may well say the millennium has come and such poor Democrats as myself and the common people can well afford to follow where Cleveland and Bryan lead."

At Harper's Ferry, Senator Daniel and Mr. Davis were the speakers.

DAVIS ON A TOUR.

WASHINGTON, October 11.—Henry G. Davis, Democratic candidate for Vice-President, reached here this morning from Baltimore over the Baltimore and Ohio railroad and left twenty minutes later on his campaigning trip through Maryland and West Virginia. At Brunswick, Md., Mr. Davis came to the platform and bowed. He was enthusiastically greeted, but made no remarks and retired to his car.

BANK FAILS.

WASHINGTON, October 11.—The First National Bank of Claysville, Penn., closed its doors to-day in consequence of a run yesterday. A receiver has been appointed. The last statement issued by the bank September 16 shows total liabilities \$300,000, including deposits of \$158,000.

REFLECTIONS OF A BACHELOR.

Lending money is discounting friendship for cash.

A woman's idea of the place to carry her money is on her back.

When a man thinks of the money he could spend if he weren't married, Croesus looks to him like a pauper.

Some men are like a troubled sea, some turn for trouble and some marry into it.

Some women don't have to bleach to have red-headed tempers.

Even a bathing place can't take a peck-into shirtwaist in the face.

It's just like a woman to wish she had twice as much hair as she even got enough of the kind she has.

It's funny how absolutely convinced the reformer is that the only virtue on earth is buttoned under his own waistcoat.

IT IS SERIOUS.

Some Oakland People Fail to Realize the Seriousness

The constant aching of a bad back, the weariness, the tired feeling, the pain and aches of kidney ills are serious—if neglected. Dangerous urinary troubles follow. An Oakland citizen shows you how to avoid them.

Mrs. Peter Holme, 613 Sixth street, says: "Mr. Holme has gone to Alaska on a salmon fishing boat and will not return for some months. Shortly before he went away his back ached so he could not work, and I honestly believe it had not been for the use of Doan's Kidney Pills obtained at a drug store he would have been unable to make the journey. Mr. Holme had attacked backache for many years. At first they were mild but with the passing of time they came more frequently and were much more acute. The last one was very severe, and when Doan's Kidney Pills stopped it and enabled him to return to work, to say we entertain a very high opinion of the preparation mildly expresses the facts."

For sale by all dealers. Price 50 cents. Foster-McMurray Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WILL MEET THE MAYOR.

WATER COMMITTEE WILL HOLD A CONFERENCE TOMORROW.

President Dornin of the Council this morning personally notified J. H. Campbell and Cary Howard of their appointment by him as members of the committee of city officials and citizens to consider all water propositions which may be presented to the Council.

The notification was not extended to James K. Moffitt, who has also been named on the committee, because of Mr. Moffitt's absence from the city. He will return, however, on Saturday, and associates say that there is no doubt that he will accept the appointment.

The other members of the committee are Mayor Olney, Councilman Meese, Councilman Wallace and C. J. Engineer Turner.

All of the committee members who are in town received a letter from the Mayor today asking them to meet him in conference tomorrow afternoon to determine upon a course of action in the matter which has been referred to them.

FINAL NOTES OF THE FAIR.

PREPARATIONS NOW COMPLETE FOR ST. ANTHONY'S BAZAAR.

St. Anthony's Parish Fair will be opened on Saturday evening, the 13th. At the last meeting of the various committees, the booths were assigned the different groups of workers, who will decorate the interiors and have them ready for the opening.

An account of the splendid work so far accomplished by the many personal friends of Rev. Father Y. C. San Francisco, the Shamrock. Both of that city has been given the cause of the fair.

St. Anthony's Parish was a handiwork of the fair, and the present staff of clergy as well as the church and school. The fair is the work of the parish and the parish is the work of the fair.

The tournament is in aid of the fair and will be held in the hall, corner of Sixth and Market streets, on Saturday evening, October 15th. The fair is the work of the parish and the parish is the work of the fair.

The hall will be decorated for the occasion and a large number of valuable prizes will be given. The fair is the work of the parish and the parish is the work of the fair.

The fair is the work of the parish and the parish is the work of the fair.

JEWISH PROTEST.

RIALSTOCK, Russian Poland, October 11.—The Medical Association has appealed to the Governor of Grodno against the action of the station-master here in insulting a Jew doctor named Epstein and refusing to allow his colleagues to use the waiting-room while bidding him farewell on the occasion of his departure for the front. The station-master declared he would not allow any "shveng" to use the room. The association adopted a resolution to the effect that the word was an insult to the whole medical fraternity, and appealed to the Governor for redress.

M'GOVERN IS AFTER BRITT.

TERRIBLE TERRY WANTS TO MEET SAN FRANCISCO BOY.

NEW YORK, October 11.—Sam Harris, manager for Terry M'Govern, announced to-day that as the result of last night's fight at Philadelphia, he is now prepared to match M'Govern with either Young Corbett or Jimmy Britt for the featherweight championship.

M'Govern, who formerly held the title, was twice defeated by Corbett and the latter in turn succumbed to Britt, who now holds the championship.

HARMON FOR PARKER.

NEW YORK, October 11.—Judge Parker received a message to-day from Judge John Harmon of Ohio, former United States Attorney-General. The former attorney-general sent word from London to Judge Parker that he would suit up for the condition of his wife's health would permit. Upon his return to this country, he said, he would enter into the campaign and do all he could in the interest of Parker and Davis.

FUNERAL OF MRS. W. L. KE TO-MORROW MORNING.

The funeral of the late Mrs. Alfred Wilke will not take place until to-morrow morning at 11:30 o'clock. The announcement that he obsequies would be held this morning was an error. The services will be held in Oakland Crematorium.

WILL VISIT PARKER.

CHICAGO, October 11.—Mayor Carter Harrison left to-day to meet Judge Parker in New York City. The Mayor plans to pledge support to the Democratic Presidential candidate and to start back to Chicago to-morrow night.

IN SOCIETY.

OAKLAND CLUB PLANS A MEETING.

The Current Literature class of the Oakland Club is planning a delightful hour for tomorrow afternoon in Maple Hall. The program will begin at half past two and an intellectual treat is assured. The work of Charlotte Perkins Gilman will be reviewed by Mrs. Julia Sanborn. Several women prominent in club life will participate in the discussion. The opinion of this author on Co-operative Housekeeping and her advanced ideas on the management of the home are well known.

The afternoon will have its social features and a heavy of hostesses will extend the club's hospitality to the guests. Mrs. Florence Hardman Miller will be the presiding hostess assisted by Mrs. Mary Colman, Miss Nancy Colman, Miss Grandjean, Mrs. Lacey and Mrs. Ralph Cole.

MISS LOUISE STONE WILL GIVE A LUNCHEON ON FRIDAY.

Those who will participate include Miss Noyelle De Gole, Miss Grace Baldwin, Miss Edith Beck, Miss Bessie H. Lovell, Mr. and Mrs. Edson F. Adams, Mrs. George J. Whelan, A. A. Deussen, Mrs. J. C. Deussen, Mr. and Mrs. H. F. Travers, Mr. and Mrs. E. S. Leckie, Mr. and Mrs. Jack Matthews, Mr. and Mrs. Richard Ayres, Mr. and Mrs. E. L. Lanning, Mr. and Mrs. G. B. Daniels, Dr. D. D. Crowley.

LUNCHEON PLANNED.

Miss Louise Stone will be the hostess Friday at a pretty luncheon to be given at her home on Duane street. The affair is complimentary to Mrs. P. F. Stone.

PRETTY WEDDING.

The marriage of Miss Florence Taylor, daughter of Mr. and Mrs. E. P. Taylor of Fourteenth street, and James Ireland will be one of the pretty events of the week. The nuptial knot will be tied by Rev. E. B. Baker in the presence of a few relatives but there will be an elaborate reception following the ceremony for which about 200 cards have been sent out.

The color scheme for the wedding is pink and green and some pretty effects are planned. The bride will wear a beautiful lace gown and her attendant, Miss Mabel Taylor, will be dressed in pink. Dr. C. F. Jarvis will attend the groom.

The young people will enjoy an extended honeymoon.

THE MISSES SHIELDS' AFFAIR.

Little Miss Sara and Miss Bella Shields proved themselves to be delightful little hostesses last Saturday at the dainty luncheon given at the home of Mrs. William Lyndham Shields. Miss Sara Shields entertained thirty little guests and the merry group were seated around a table prettily decorated with pink cosmos. After luncheon the hostesses and their guests enjoyed a delightful afternoon at the matinee.

Miss Bella Shields and her guests enjoyed an elaborate luncheon made possible by the generous contributions of the guests. The affair was a most successful one and the young people participated in the party affair.

INFORMAL AFFAIR.

Mrs. A. R. Dabney entertained a few friends last Thursday evening very informally at her Webster street home. Five hundred formed a pleasant diversion and the players included Dr. and Mrs. Schuler, Mr. and Mrs. Geo. Humphreys, Miss Eva York, Miss Estelle Klesman, Miss Alice and Miss Helen Dabney, Dr. G. F. Kleeman, Dr. F. C. Kleeman, Rufus Smith.

STAG DINNER.

Dan F. Belden was host Saturday evening at a jolly stag dinner, with Wiggins as guest of honor. Mr. Belden will forsake bachelorhood this week and the group of diners gave him many clever toasts.

The guests included Messrs. Wiggins, Crenshaw, Walter Starr, Harry St. Lawrence, Fred Parr, Howard Oliver, William G. Cooke and Dr. Percy Gaskill.

ENTERTAINS FRIENDS.

Miss Alice Shannon entertained a number of friends last Friday evening, with Miss Emily Hosking as guest of honor. Miss Hosking will soon return to her home in Grass Valley, and the affair was a farewell party.

The guests included Miss Emily Hosking, Miss Hazel Taylor, Miss Irene Gooden, Miss Mary Gooden, Miss Florence Shannon, Miss Alice Shalaberry, Messrs. Will McManis, Will Clapp, Charles Spink, John Shannon, Orwin Cummings, Robert Clappett, Ed Clappett, Ernest Adams, Damon Lewis.

GOING EAST.

Mr. and Mrs. John Morse Bartlett will leave shortly for an extended Eastern trip. They will visit the Exposition and will spend some time in Washington, Boston and New York before their return.

A PARTY.

George Kenney was host last Thursday evening at a pleasant party given at his home on Thirty-fifth street. After an evening of music and games a supper was served.

The guests included Messrs. Naomi Kenney, Miller, Monroe, Earl Slavich, Slavich, Florence Monroe, Marie Wilcox, Mary Kenney, Mrs. J. G. Kenney, Messrs. George Kenney, J. C. Kenney, Charles Kenney, J. C. Kenney.

DANDRUFF CAUSED BY A GERM.

A New Discovery That Kills the Germ and Prevents Baldness.

Pretty nearly all the hair preparations for dandruff have some merit in allaying itching of the scalp, and in being a fairly good dressing for the hair, but there is only one that recognizes what causes dandruff, falling hair and baldness, and that destroys the cause, a little germ, and that is Newbro's Herpicide. This germ eats its way into the scalp, it digs up the scalp, it destroys the germ, it stops the falling hair and cure of dandruff and baldness. Newbro's Herpicide kills the germ. Destroy the cause, you remove the effect. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Bowman & Co., Special Agents.

LABOR UNION NEWS.

LAUNDRY WORKERS INITIATE— OTHER NEWS OF INTEREST.

At the meeting of the Laundry Workers' Union last night eight candidates were initiated.

Tonight the play "A Man of the People" will be produced at the Dixie Opera House under the auspices of the union, and a big sale of tickets is reported.

It is understood that the national headquarters of the laundry workers will be moved to San Francisco in the near future.

It has been decided to do away with the National Laundry Workers' Journal, as it is a needless expense.

TO DO AWAY WITH PICKETS.

It is understood that a resolution may be introduced at the convention of the American Federation of Labor in opposition to the placing of picket lines on pickets at the front of retail establishments which are boycotted by a union. It is probable that the Santa Rosa and Peninsula delegations will introduce the measure.

TO PATRONIZE COAST FIRM.

The Material Transporters' Union has arranged to purchase its monthly buttons hereafter from a San Francisco firm, satisfactory price having been made. Therefore the buttons have been purchased in the East.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Miss Genevieve Wright has established a class in physical culture at Miss Horan's school, to be open to the pupils of the school and the general public. Class each Wednesday 3:30 p. m. Further information on application.

If You Buy Your Furniture

And carpets before seeing our stock and getting our prices, you will be almost sure to say, "I am sorry I did so." Discount for cash, or easy payments. C. W. Kinsey, 627-529 Twelfth street, between Clay and Washington streets.

A TALE OF TWO OAKLAND CLOCKS.

This morning in Oakland happened one of those funny things which fate occasionally springs on mortals of this planet.

A Fourteenth street resident, who is in business in this city, and whose domicile window commands a view of the City Hall clock, arose not long after daylight to do what he felt it was, to make the situation more clear it will be necessary to state that his mantle clock has been fifteen minutes fast for some days and last night his wife announced her intention to let that timepiece run down so it could have a rest.

Supposing the mantle clock had stopped he went to the window and surveyed the town clock. To his surprise he found a curious thing, it was claimed it was 9 o'clock. He peered into the street and noted but few signs of commercial life. Stores were closed and scarcely any people were moving about.

He returned to his couch and informed his wife that it must be a holiday. She arose, questioned the City Hall clock and then glanced at the mantle clock, whereupon she was patting to 7:15. She approached the mantle clock and was greeted with a faint tick. Then light broke upon her. It was the City Hall clock which had stopped, and such really was the case. Harmony now reigns again in that matrimonial partnership.

A GUARANTEED CURE FOR PILES.

Itching, Blind, Bleeding or Protruding Piles. Cures in 6 to 14 days. If PAINFUL, Ointment fails to cure you in 6 to 14 days 50c.

LILIAN LAWRENCE DWELT IN OAKLAND

Lilian Lawrence, the new star at the San Francisco Alcazar Theatre, used to be an Oakland girl. About twenty years ago, when she was in her teens, she was an actress at Ed. Barrett's Tivoli Theatre, afterward Cameron Hall, and now the Delger Broadway on Fourteenth street, west of Broadway.

Her chum in those days, who was also a member of the Tivoli company, was Ethel Avery. Both girls went East in due time and both have passed from the recollection of most of their old-time local admirers.

Lilian Lawrence has been for years, until recently, the star of a leading Boston playhouse.

THE DESIGNER

"A Magazine of Real Use to Woman"

November Number—Out To-day **10^c.**

The Designer is an all-round magazine. It covers every phase of "Her" life, and is unique among woman's publications in that it is edited in part by its

subscribers and readers. Its fashions are the Standard, and its reproductions of them in colors and half-tone are not excelled by any periodical in this country. Altogether it is a magazine that is very close to its readers and keeps them close to it. If You have never read it, there is a treat in store.

the bill will have to meet. I am not

[illegible]

to come with a kind feeling volunteered that if supplemented by a salt water sprinkling system at moderate cost a plant can be installed for about \$3,000,000 or \$3,500,000 and it has been with that in view that I have been consistently

years that I have been a member of this City Council. Not until the second day of last month however was I able to get a contract of option on the property. I have had in view the owners being told to tie up their properties for long terms for the small consideration I felt justified in paying on my own account. On the above date however I did succeed by the payment of a nominal sum in getting an option on the property, the greatest inducement to the owners to give me a contract, being the prospect of a large profit.

any other purpose but still a figure far below the value that the Oakland Water Company places upon its holding at Alvarado.

FLOWING WELLS

\$394.00 on its 37 acres at that place, as a source of supply over and above its value as agricultural land. If the water can be developed—and I believe it can—my proposition will involve an expenditure of \$150,000 for 1000 acres of land on which are several artesian wells, one of which I have photographed showing a splendid stream of water flowing from the sandpits at a point about the height of a man's head above the ground.

Taking the City Engineer's estimate of the cost of service reservoirs and distributing system the above cost of land, etc., the probable cost of necessary wells and an ample allowance for pumping plant and for a 36-inch main from source to Oakland city limits the cost would not, I am firmly convinced, exceed \$35,000.

opposed to any star chamber proceeding. I think to avoid friction that we should have a meeting on a date and place to have at the mould snow of the progress that the special committee makes. They there can be no charge made that any favoritism is shown.

Councilman Elliot—I have no water scheme in particular which I wish to vote for. I think that it is now the duty of the Commission to provide a means out of the wilderness and sow the pedges with the people. Before I talk upon the water question I wish to say something about the bond question. There have been various reasons advanced why the bonds should not have been carried. Many people have said it was on account of the water question. I disagree with

those who say that. I have no doubt, but I have no doubt that the bonds would have been carried had all these other reasons been taken into consideration. Those who

THE LATEST NEWS.

4:30 P. M.

STEAMER
WRECKED
IN GALENineteen Lives Were
Lost In the
Wreck.

HALIFAX, N. S., October 11.—A report has reached here that the steamer *Call*, bound from Tracadie, N. B., for New London, P. E. I., has been sunk near New London and that the captain and crew of seventeen were lost. The steamer is owned in Chatham, N. B.

A second message was received from New London this afternoon, saying there were nineteen on board the *Call*, including fourteen passengers, all men.

She went down in a gale last Saturday night.

A message received from New London by John Fagan, one of the owners of the *Call*, confirms the report of the loss of the steamer with all on board.

Mr. Fagan's son was on board the steamer and is believed to be lost.

It is believed that most of the passengers were men from fishing villages at which the *Call* stops along the coast and that many of them had families.

GENERAL PAYNE'S WILL

MILWAUKEE, Wisconsin, Oct. 11.—The will of the late Postmaster-General Henry C. Payne was filed for probate today. The estate is estimated in value at \$700,000, of which \$400,000 is personal and \$300,000 real estate. It is left in trust chiefly for the benefit of his wife, Mrs. Lydia Payne, and his sister, Mrs. Imogene P. Cameron. There are a number of minor bequests.

ARMIES BATTLE DURING
DUST STORM.

MUKDEN, October 11.—A Russian correspondent of the Associated Press, describing incidents of the Russian advance, tells of a frightful dust storm, peculiar to this season in Manchuria, which raged on Saturday.

It was at its height while a battalion of the Pekoff regiment, with guns attached, a Japanese force posted in a village south of Shake river and drove out the Japanese after a stubborn resistance.

Clouds of dust blinded the combatants and made it impossible to aim.

WANT TO
GET ON
TICKET.Socialists Make an Ap-
peal to Secretary
of State.

SACRAMENTO, October 11.—Cameroon King, the leader of the Socialist party in San Francisco, was in this city today and had a conference with Secretary Charles F. Curry in regard to the Socialist Congressional candidates in the First and Sixth districts.

The nominees for Congress in these districts presented certificates of nomination which the Secretary of State refused to accept because he claimed that the Socialist party had not polled in these districts three per cent of the votes cast as required by law.

King claims the party polled the required three per cent all over the State and that is all the law requires.

It is understood that King will file a writ of mandamus in the Superior Court to compel the Secretary of State to accept the Socialist certificates of nomination for Congressmen from the First and Sixth districts.

NO VACATION.

Superintendent of Schools McElmonds announced today that there would be no mid-term vacation as has been customary in the past. Schools will continue open. The reason of the School Board deciding not to grant the usual week's vacation during the present month is that the school children enjoyed a week's vacation during the convalescence of the Knights Templar.

POISON
IN THE
WHISKYNew York Saloonkeeper
Is Taken Into
Custody.

NEW YORK, October 11.—Acting under instructions from the Coroner, the police have taken into custody Rudolph Fritzsche, who keeps a little saloon at 723 Tenth avenue. Fritzsche is charged only with being a suspicious person, but the police say that in his saloon, it is suspected, whisky was sold which contained poison, and that this whisky is responsible for the many deaths that have occurred in the neighborhood recently.

FILLED THEIR FLASKS.
Fritzsche only recently bought the place, which is of the variety generally described as a "barrel house." Whisky is sold there in large quantities and at a low price. The leading brand was drawn from barrels upon the application of a purchaser. People in the neighborhood carried their flasks to the saloon and had them filled.

Investigation of the numerous deaths in the neighborhood during the past two weeks showed that nearly all those who had died suddenly were customers of the "barrel house." Fritzsche, after being taken to the station house, was quickly admitted to bail. He returned to the saloon, but the police followed, closely questioned the proprietor and closed the doors.

TWENTY-FIVE DIE.

Twenty-five persons living in the neighborhood, all of them middle age, have died within the past two weeks. The symptoms were in the main identical. They were characterized by the attendant physicians in all cases as those of a cholera. In the past twenty-four hours, one death, that of Robert Smith, has been reported while the following awaited burial.

Michael McLaughlin, aged 45; died Saturday.

Charles McLeaver, aged 50; died Sunday.

William Drain, aged 30; died Friday.

Adolphe Lehman; died Sunday.

Nora McGinness; died Sunday.

All these persons resided in a prescribed territory. Lehman's stomach and a bottle of whisky purchased in the neighborhood were taken to the Health Department for analysis, the result of which has not yet been made public.

WAS ATTACKED
BY FOOTPADS.

SAN FRANCISCO, October 11.—John Conlon of 1316 Fillmore street, former painter for the State Board of Harbor Commissioners, was taken from Golden Gate avenue and Fillmore streets, where he was found by Officer Graham at 4 o'clock this morning to the Central Emergency Hospital.

He has a fracture of both forearms and is badly lacerated over the left eye. There are severe abrasions and contusions of the nose and a possible fracture of the skull.

He says that some one struck him down and took his money. Frank Scully of 1841 Fell street, who works on the water front was with Conlon last night and the latter had \$80 or \$70. When they parted Conlon said that he was going directly home.

In the Indian corner is a small calendar on a chamol banner, decorated with a small papoose of pottery, sometimes in colors. Copper lamps are new. Low round vase shapes are seen with shades of copper-colored glass picked out with a white color.

GEORGIA
LAUNCHED
AT BATH.Battleship Slides Into
the Waters of
Atlantic.

BATH, Me., October 11.—The battleship *Georgia* was launched at 1:53 p. m. today.

Excursionists from all parts of Maine had come to witness the launching and the party entertained by the officials of the company included Gov. Moff Joseph M. Terrell of Georgia, Congressman F. Carter Tate, Mrs. Tate, Miss Stella Tate and others of Georgia.

Miss Tate, in her duties as sponsor, also had personal supervision of the launching. A method somewhat different from the usual one of releasing the hull by severing a cord, was employed today, when sawyers beneath the vessel severed the constraining rope pieces with cross cut saws and the vessel was started toward the water.

As the battleship began to move, Miss Tate broke a bottle of champagne across her bows, naming the craft in honor of her own State and as the stern parted the surface of the Kennebec, the *Georgia* was saluted by numerous craft and manufacturing plants along the shore, all of which were a knowledge by her siren and other whistles as the battleship was launched with steam up. Both military masts were in position, as well as the conning tower and the three smoke funnels, which gave the vessel more the appearance of a completed battleship than an unlaunched one. Following the launching a luncheon was served.

DESERTED HIS
BRIDE.

All that can be done at the present time to sever the bonds of marriage between Edna V. Orton from her husband Carol J. Orton who deserted her three weeks after the ceremony was performed was done this morning by Judge Ogden by granting her an interlocutory decree on the grounds of wilful neglect and failure to provide.

They are a young couple and about a year ago Orton persuaded the plaintiff to go with him to San Rafael and be married. The marriage was performed and they went to San Francisco and lived at the Cosmopolitan Hotel for three weeks when he told her that he could not support her any longer and said that he would have to leave her as he had a mother and sister to look out for.

TORPEDO BOATS
WRECKED.

ST. PAUL, Minn., Oct. 11.—A special to the "Dispatch" from Minot, N. D., says:

Two knocked down torpedo-boats en route over the Great Northern Flyer. It is presumed that the journal was tampered with at Rugby.

The train passed through Rugby at an early hour on a special schedule following the Great Northern Flyer. It is presumed that the journal was tampered with at Rugby.

During the summer a number of Russians have been employed on the section crew at Towner. Some of them, it is said, have disappeared. It is known that the Russian and Japanese governments have had sales in this country with a view of watching suspicious shipments to the Orient.

The wreck did not materially injure the steel work on the boats but practically destroyed the wood work located over the front trucks of the car so that it will have to be reconstructed. The steel material has been piled up to one side.

A beautiful clock recently seen is composed of a greenish, gray bronze, with a surface resembling certain rock formations. On the broad base, which supports a massive column broken off short, sits "Klio," a priestess of stern aspect. Leaning forward, with one arm thrown over a huge book of many clamps, her hair falling in two heavy braids to the hem of her gray robe, she holds up with her grave, sad eyes, as if to say: "Thou hast fled." That is a clock to make one think.

The book is the Book of Time—Franklin D. Roosevelt.

HE WAS
TOO POOR
TO MARRYShipping Clerk Takes
Poison to Avoid
Marriage.

William Lee shipping clerk in the City of aris dry goods store, San Francisco, living at 780 Folson street, in that city, attempted suicide by drinking laudanum. He was found by Nellie de Martini, of 903 Union street, San Francisco, the young girl to whom he was engaged for one week.

Lee gave Miss de Martini an engagement ring Sunday, and at the same time remarked that he was going to leave her. She laughed at the joke, as she took it. But later she realized that his jest was only too true, for Lee tried to take his life.

Miss de Martini telephoned to Lee's office yesterday, eager to hear from him, as something in his words had caused her to worry. She was told that a clerk from the store had gone to his room and found him very sick. Immediately the girl went to her sweetheart's side. Then she learned of his condition and had him removed to the Central Emergency Hospital.

Lee left a note in his room addressed to his betrothed, saying he was very sorry to leave her, but he was poor and in financial straits, and so it was for the best that he should set her free, even by taking his own life.

The police surgeon says Lee will likely recover.

BLOODY BATTLE
IN PROGRESS.

MUKDEN, October 11, 11 p. m.—A bloody battle is now raging about six miles north of Yentai railroad station.

The Japanese on Sunday fell back along the whole front and the Russian advance guards crossed the Schili river (about half way between Mukden and Liao Yang) and came within three miles of Yentai, but yesterday the Japanese received strong reinforcements of infantry and artillery and not only held their positions, but even assumed the offensive.

The fighting lasted all day and night. The Japanese directed their artillery fire with great skill and searched the Russian positions so fiercely that the Russians fell back north on the Schili river, which crosses the railroad seven miles from Yentai.

The Russians this morning resumed their advance once more, crossed the Schili river and engaged the Japanese two miles south of it. A terrific artillery engagement is proceeding along the entire front. The result of the battle is still undecided.

FEARS HUSBAND
WAS KILLED.

Great anxiety is felt by Mrs. J. Leipsiger, 718 Eleventh street, for the safety of her husband, Joseph Leipsiger, a local jeweler, who went to Stockton two weeks ago to make purchases of old gold, silver and diamonds. He had a considerable sum of money on his person and the wife, who has not heard from him since October 3d fears that he may have met with foul play in the Slough City.

When a woman is really happy is when she goes up in the attic on a rainy day and cries over a truckful of old letters.

The dentist who could invent a way to let a woman go on talking while he was drilling her teeth would make ten thousand fortunes.

Generally a girl is pretty fond of you if it makes her furious to find you to have

W. H. HIGH HAS
RETURNED.HAS NOT YET RECEIVED AP-
POINTMENT TO SUCCEED
COL. BECK.

SAN FRANCISCO, October 11.—Bank Commissioner Wm. H. High has returned from a trip to the country, where he has been examining about Mr. High states that he has not yet received the appointment to succeed Colonel Beck as manager of the International Bank in this city.

HUSBAND WAS
NOT NEAT.MRS. MINIFIE LEFT HER HOME
AND WOULD NOT
RETURN.

After living with her husband fourteen years Fannie M. Minifie deserted him on account of the fact that he brought dirt into the house after being at work all day in his occupation of a house mover. George W. Minifie was granted a divorce from her this morning by Judge Melvin and was granted the custody of the eldest boy, Thomas L., while the other three children, Gadsby V., William L., and Hazel P. were given to the mother.

According to the testimony of Minifie his wife complained to her friends of the grime and dirt that he brought into the house and finally left him. He brought an action for divorce some time ago, which was contested by Mrs. Minifie, but was afterwards abandoned by both of them. Then they separated again and this morning the divorce went through without any opposition from the wife.

MUSICIAN TAKES
A BRIDE.

SAN DIEGO, Oct. 11.—After two weeks' courtship Miss Anna Held and Max Heinrich the famous musician, were married today at noon. The ceremony was pronounced by Rev. E. J. Holckat, pastor of the English Lutheran Church here. Madam Modjeska and husband, Count Bozenta, and Wheeler J. Bally, only being present. After the marriage they lunched at the home of U. S. Grant and then in an automobile, started for the home of Mrs. Heinrich, at La Jolla.

NOT OUR HARRY
GILLIG.

SAN FRANCISCO, October 11.—Harry Gillig, the well-known clubman, singer, raconteur, yachtsman and entertainer, is reported to be dying at Hamburg. A telegram was published in the morning papers to that effect.

Charles Foster of the firm of Shreve & Co. is authority for the statement that the Harry Gillig at Hamburg is not the Harry Gillig of the Bohemian Club.

FOOTPADS ROB
A SAILOR.

Olaf Hansen, a sailor, reports he was held up last night just as he was about to go aboard his ship at Long Wharf and relieved of \$20.

According to Hansen he walked toward the gang-plank when two men stepped from the shadows and thrust a pair of revolvers in his face. It was too dark to tell if the men had masks on. One of the men kept a gun pressed against him while the other went through his pockets and took \$20.

INSANITY
AT COUNTY
PRISONPrisoners May Be Feign-
ing to Avoid
Trial.

Insanity seems to have become epidemic at the County Jail, and in the past few days no less than three or four of the prisoners have developed queer streaks, and this morning Pietro Angelo, an Italian, was committed to the Stockton Asylum by Judge Hall. Angelo was arrested for stealing a horse, and after he had been in the jail for a few days he developed into a full-fledged maniac. He tore out the water pipes in his cell and became so violent that he had to be confined in a strait-jacket.

Joe Rodriguez, confined on a charge of burglary committed at Haywards, is now insisting that his mother is waiting for him outside of the wicket. He kept the prison in an uproar last night, calling for the jailer, and unless he gets better today a charge of insanity will be placed against him.

Jailer Harry Clark states that Earl A. Sargent, the University student confined there, is acting queerly, whether designedly or not he is unable to say, but says he has almost come to the belief that the disease is one that is catching.

GREAT GUSHER
IN SOUTH.

SANTA BARBARA, October 11.—A report was received from Lompoc yesterday afternoon that a well put under the drill by an oil company there developed the greatest gusher ever struck in the Northern Santa Barbara county field.

At a depth of 3200 feet a six-inch stream of oil spouted to the height of 130 feet, flooding the entire neighborhood before the well could be brought under control.

Rich oil sand was struck at a depth of 2400 feet, yielding five hundred barrels of oil daily but the drill was kept at work and the company was rewarded by striking the great gusher.

OAKLAND CREMATION
ASSOCIATION
THE COLUMBARIUM
is now complete and a general invitation is extended to all interested in the same. Visitors will find the most complete and up-to-date crematory and Columbarium in the world. Don't be afraid to ask questions as we take pleasure in answering all queries concerning the art of cremation. J. R. FLOWN, Supt. Cor. Howe and Mather Sts. Take Piedmont Ave. Car.

The Canadian Fight For Nationality

While we are mildly engrossed in politics on this side of the border, a fierce conflict is being waged on the Dominion side of the line between the Liberals and the Conservatives, the two parties which have opposed each other in Canadian politics ever since the confederation. In some respects the struggle in the Dominion is analogous to the one now being waged in the United States. The result is likely to prove the same.

In the Dominion, a progressive, effective and broad-minded administration, having a long list of notable achievements to its credit, is being assailed by the party of so-called conservatism—a reactionary organization holding to narrow views and antiquated theories of national development. The issue put forward is the government's plan of building another transcontinental railway north of the Canadian Pacific. This road is designed to open up the vast territory lying between the Red River of the North and the Mackenzie. Incidentally the Hudson Bay region will be tapped. In this gigantic scheme of development is involved national aspiration.

It is the hope of Sir Wilfred Laurier, the head and master spirit of the Liberal Government, to make the Dominion of Canada a nation. Conservatives would forever keep it a British colony and resolutely oppose every step taken by the Canadian premier tending to work a development of the national idea. Sir Wilfred Laurier as resolutely bends his energies toward cementing a union between the French Catholics of Quebec and the English and Scotch Protestants of Ontario and the Maritime provinces into a homogeneous people imbued with a spirit of devotion to their native land. Laurier is a Canadian before he is a British subject. He is French and Catholic, but he is for the interests and liberties of Canadians without distinction as to race or creed. He is the first of Canadian statesmen to rise above the confines of colonialism, to lay down the rule that the interests of the British crown are secondary and subordinate to the interests of the Canadian people. In politics he is neither Protestant nor Catholic, neither French, Scotch nor English—speaking both English and French fluently, and deeply versed in the literature of both France and England—but an advocate of a policy of the broadest toleration and the most ardent patriotism. Under his masterful and enlightened leadership the Dominion has made phenomenal advances in material development; it has made distinct strides toward the national idea.

Sir Wilfred Laurier does not advocate complete separation from the Empire, but he believes Canada should be a nation, not a colony. He says it should be an independence instead of a dependency. This is an euphemism to soften the bluntness of the distinction between dependence and independence. At present, the Dominion has legislative independence, but her Governor-General is appointed by the Crown and all treaties affecting Canadian interests are made by the British Foreign Office. Neither the people of Canada nor the Canadian Parliament have any direct voice in the matter. Sir Wilfred Laurier wants Canada to make her own treaties through her own diplomatic representatives. She already controls her own military establishment, but has no navy. Once vested with the power to make her own treaties, Canada would be vested with the chief distinguishing mark of national sovereignty. The Governor-General would become a mere figure-head and would have to be recalled the moment he became distasteful to the Canadian people. A country that can make its own laws, control its own finances and school system, make its own tariffs and negotiate its own treaties is an independent nation, no matter what fiction of red tape, precedent or tradition may bind it to another. No man more clearly understands this than Sir Wilfred Laurier, but his political speech halts short of stating that his policy is directed at the complete independence of Canada—an independence that is to be worked out by degrees and is to come as the natural result of national evolution.

With a foresight less prescient, perhaps, but with prejudice sharpened by political bitterness, the Conservatives of Canada—the ultra Crown loyalists—charge Laurier with trying to detach the Dominion from the Empire, and thus assist in breaking up the vast colonial fabric that Britain has built up in various quarters of the globe. The accusations have a substratum of truth. Laurier is not hostile to the British empire and has no wish to break it up, but he does desire to erect Canada into an independent nation, and the logic of this is opposed to the imperial idea as it is understood by the average Briton. So far the indications point to a victory for the Laurier administration.

William Waldorf Astor pays the United States another compliment besides refusing to live in the country. He declines to sell his New York real estate. He appreciates the value of American investment if not the value of American citizenship.

The Japs are finding out that a bear hunt is not always a one-sided sport.

Fame Makes Gurney Uncomfortable

The free discussion of the Gurney incident in the United States is making the press and public men of Great Britain feel far from comfortable. Mr. Gurney, third secretary of the British embassy at Washington, was fined \$25, it will be remembered, by a Massachusetts police justice for speeding his automobile faster than the law permits. He was insolent to the court and defied its jurisdiction, and was fined another \$25 for contempt by the Justice, who was not aware that attaches of the diplomatic corps of foreign nations are not amenable to legal process in this country. Technically, Mr. Gurney was standing upon the diplomatic rights of his government, but morally he was wrong in not explaining to the justice the situation and in not treating him with proper respect. Neither did he express any regret for violating the laws of Massachusetts. Governor Bates of Massachusetts wrote a letter of apology to the State Department, explaining the circumstances and suggesting that the conduct of Gurney be called to the attention of the British Ambassador. This put a phase on the matter not at all to the secretary's liking. Thereupon it was announced that it was not Gurney who raced the automobile in defiance of law, but one of New York's "rowdy rich" young men. The automobile was Gurney's, however. This makes the matter still worse for the British attaché. He was not guilty himself, but he stood upon his diplomatic privilege to shield the guilty person who was amenable to the laws of Massachusetts. Gurney would not even assert his innocence, but arrogantly denied the court's jurisdiction and defied the justice, but involved the "comity of nations," not to protect himself, but to protect some one else. It is clear that Mr. Hugh Gurney insulted the majesty of American law and played a scurvy trick on American justice. In diplomatic circles a concerted effort is being made to hush the matter up, so Gurney will not lose his job, but the American people are not so easily diverted from a question touching their national pride and dignity, and therefore an animated discussion continues in the press regarding the propriety of Mr. Gurney's further stay in this country as an attaché of the British embassy. This discussion is attracting keen attention on the part of the British public, which is impressed with the advantages of not offending American sentiment, particularly at this time. Our State Department may consent to overlook the conduct of Mr. Gurney, but the temper exhibited by the American press indicates that the British Government will find it advisable very soon to send Mr. Gurney to some post where his peculiarities are less likely to cause international complications. As a promoter of the "comity of nations" he is not a success.

Port Facilities at San Francisco.

At the coming election the voters will be called on to pass on a proposition for the State to issue \$2,000,000 bonds for the improvement of the water front of San Francisco. These bonds will be paid, principal and interest, out of the revenues derived from rentals and port charges, which are amply sufficient, and will therefore impose no additional burden on the taxpayers. Nor will the debt to be contracted increase port charges or detract from the efficiency of the service. Indeed, the increased revenues that the contemplated wharf and dock facilities will produce will in time liquidate the entire indebtedness. However, the bonds can never become a burden to the taxpayers because the law creates a sinking fund from the Harbor Commission revenues for their final payment. The bonds will be sold at public auction by the State Treasurer.

This plan for providing additional port facilities at San Francisco, which is largely the result of the efforts of Charles H. Spear, President of the Harbor Board, meets with the hearty endorsement of the commercial bodies of the city. They have united in a circular urging the authorization of the bond issue as imperatively necessary. The dockage and wharfage accommodations of San Francisco are wholly inadequate to the demands of marine commerce, and some of the structures in present use are antiquated, dilapidated and in danger of collapse, expensive to maintain and ill-adapted to their uses. The congested condition of traffic alongshore is driving business from San Francisco, which of course reacts unfavorably on the State at large.

Shipping facilities in San Francisco have not kept pace with the growth of the marine commerce of the city. Within the past five years there has been an enormous expansion of the ocean commerce of the port due to the acquisition of the Philippines, the development of the Asiatic trade and the gold discoveries in Alaska. This expansion, which has only been fairly inaugurated, will be greatly accelerated by the construction of the Panama canal. If the supremacy which San Francisco now holds as the chief maritime center on the Pacific Coast is to be maintained the water front improvements contemplated in the proposed bond issue must be promptly carried out. As the voters are only asked to give their assent to a work which will not cost them a cent, but which will redound to their benefit, there can be no question of its being given. The water front of San Francisco is the property of the State—its most valuable asset, by the way—and its future value depends largely on its present improvement. If, by neglecting to provide proper facilities for shipping, commerce is driven to seek other ports, the value of the water front will be impaired in ratio to its lack of usefulness. Other cities are bidding for the marine trade of San Francisco, and it is necessary that ample wharfage and dockage accommodations be provided if the California metropolis is to hold its commercial supremacy.

The clarion voice of Senator Thomas R. Bard is still to be heard in the campaign. A good many Republicans are inclined to think that if the party can do without him when it is fighting the enemy it can do without him equally well in the Senate.

The prospect of sending a solid Republican delegation to Congress from this State improves daily. It is apparent that Conkey is making no headway against Needham in the Sixth district, while the Fifth is certain for Hayes. Kahn appears to be making a winning fight against Livernash in the Fourth. The Second is the only district in reasonable doubt, but there Duncan McKinlay is gaining ground with every prospect of wiping out Bell's narrow plurality of two years ago.

Those who think there is no ginger in the campaign have evidently not heard Tom Watson speak, nor read his letter of acceptance. The warmth of his canvass is something tropical.

The Democrats profess to believe that Parker will be elected, but offers of two to one on Roosevelt are going a-begging and Democratic bettors are asking odds singly on every one of the doubtful States they must carry to win. For instance, the odds are 10 to 8 that Roosevelt will win in New Jersey and in West Virginia, 10 to 7 that he will win in Indiana, and the Parker money on the short end in New York. Parker must get every one of those States to win. Roosevelt can lose them all and win.

The Japanese who made such elaborate preparations to celebrate the fall of Port Arthur must be in an excellent frame of mind to appreciate the old cook book maxim, "First catch your hare before you cook him."

"The Oakland Tribune says:

"There are two paramount issues in this campaign:

"1—The record of the Republican party.

"2—The record of the Democratic party."

"We object. The record of the Republican party is not in issue."

—Sacramento Sunday News.

Whether Republican policy is to be sustained and continued or be made to give place to Democratic policy is the question before the American people. That makes the records of both parties issues in the campaign. The best guide is the lamp of experience.

According to Senator Spooner, the Supreme Court of Wisconsin has decided that it has no power to review the edicts of Governor La Follette's State Committee. He calls the Governor an usurper and declares that he has made himself the law and all the precepts in the Badger State.

SOME PASSING JESTS

Mrs. Casey—"Tis a shame, Mrs. Cassidy, for yer husband to come home drunk the way he does. It hurts me to see it.

Mrs. Cassidy—I don't doubt it, Mrs. Casey. Ye always wuz av an invidious disposition.—Philadelphia Press.

"De poor man is always with us," said Brother Williams, "kase half de time he ain't got money to move!"—Atlanta Constitution.

Miss Joyce—Yes, Jack and I are to become partners for life.

Miss Means—And you will be the senior partner. How nice!

New Yorker.

He—Suppose I were to attempt to steal a kiss—would you be angry?

She—Indeed I would—if—if—

He—If what?

She—If it got no farther than an attempt.—Philadelphia Inquirer.

"They say that Versus' wife married him while he was still a struggling poet, on the ground that so thoughtful a man must make a good husband."

"How did she get that idea about him?"

"When he wrote to her offering his hand, he mechanically enclosed a stamped and addressed envelope."—Judge.

Hicks—There is one thing that these schools of elocution ought to teach and don't.

Wicks—What's that?

Hicks—They don't teach their pupils when they ought to decline positively to give a recitation.—Somerville Journal.

Hints for the Ladies.

Some of the smartest visiting gowns of the season appear made up in black satin.

Odd match safes to hang on the wall are in the design of a white cat's head, others show lion and tiger heads, painted to closely resemble the real animal.

Chinese short coats are shown in the shops for matinee jackets for women and are of the same kind which haughty Chinese mandarins wear when tea drinking.

College pillows are everywhere. A dinner pillow with the college colors and the name in large white letters diagonally across its surface is to be bought for 50 cents.

Light-weight broadcloths are displayed in the dress goods departments and are modish for fall street gowns and in pale shades for winter reception and afternoon gowns.

The reddish brown stone are lined in pale yellow is used now both for cooking and serving food. The shops show some new shapes in this ware that are very attractive.

Boxes of all kinds made of birch bark are seen in the fancy goods departments. These are boxes and handkerchief boxes, collar and cuff cases and larger boxes for odds and ends.

To wear under light coats are small, warm undershirts made of prepared paper. They are lined with cambric in pink or olive and have tapes attached to the outside to tie them together in the front.

Floor scrubs are in the shops and are a blessing to the housewife. They are a sort of stiff scrubbing brush on a long handle, that makes it possible to scrub the floor without getting down on the knees.

An odd dinner gown represents a long armed monkey clinging with one hand to an iron ring which is to be hung from the wall and with the other he holds a series of gongs of different sizes strung on a silken cord.

Jade finger rings are not the most delicate in appearance, but they are believed to bring luck, besides they are popular with women who like green. These jade rings sell from \$3 up, according to the color.

"Monk" stoles are among the attractive novelties in the shops. They are made of hollowed bit of tree, a bit of the bark swelling at the base, while the polished surface above is painted with the figure of a monk.

A new tie is of plaid lousine, cut on the bias and finished with hemstitching. It goes on as above the neck under a white bow collar and ties in a bow under the chin. These ties, in gay, bright combinations, cost \$1.50 each.

Framed epigrams pertinent to women's foibles are on the counters for 50 cents a dozen. They are all rather pointed, some a trifle sarcastic, and are done in white script on a black card and neatly framed in a narrow black frame.

The new idea in the shops is the rolled paper dishes that come in packages at 10 cents a package. They are a convenience to the housewife, being intended to place over fruit jars before putting on the caps and to aid in excluding the air.

Nothing can surpass the beauty of a black robe on exhibit. It is of the finest black chamois and has a rose design that covers the whole front of the skirt. The leaves and stems are hand-embroidered in fine green chenille and the roses are made of red chiffon and so put on that they stand up, looking almost real. A rose spray also decorates the corsage.

A novelty now in the shops comes from Brazil. Boxes are made of the hard round pods or shells in which Brazilian nuts grow, some being set with ground glass in red, blue and green to simulate jewels. A circular hole is cut in the top the place taken out being the cover on which is glued a Brazil nut to form the handle. They are rather more odd than pretty.

Startling Evidence. Fresh starting in great quantity is constantly coming in. Dr. King's New Discovery for Consumption, Coughs and Colds is being used. A recent experience from J. J. McFarland, Boston, Va., serves as an example. He writes: "I had been troubled for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by Osgood Bros., Druggists, Seventh and Broadway and Twelfth and Washington. Trial bottle free, regular sizes 50c and \$1.00.

FAVORITE FUEL.

Tesla Brikettes More Popular Than Ever.

Extremely clean-burning and great efficiency have made Tesla Brikettes the popular fuel with thousands. Full weight and business courtesy have helped, but merit means success. Try them. New Prices: Ton, \$7.50; half ton, \$4.00; quarter ton, \$2.00. Phone Main 78, or send postal to Tesla Coal Company, Adams Wharf, Oakland. Orders promptly filled.

Galindo Hotel Bar, 411 Eighth street, Frank Courant and Fred Frame, prop's. Phone RE 4542.

Bargains—Bargains. Every article at a bargain at the Old Reliable, H. Schellhaas Corner Store, Franklin at Eleventh street.

Old Friends are the Best. Stick by the J. J. Lerri & Co. Steam Cleaning Works, 368 Fourth street. Phone Main 355. New carpets at bed-room prices.

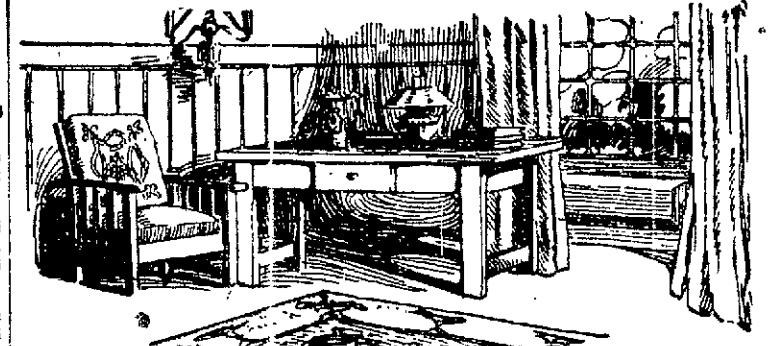

Eliminate from the blood the uric and lactic acids that cause rheumatism by using Lash's Kidney and Liver Bitters.

Seen in the Taft & Penroyer Windows

To watch the displays made behind Taft & Penroyer's two hundred and fifty feet of window glass is an education both in style and economy. You should join the class. Here are to-day's lessons:

Fall Corsets

Fall corset models differ from those brought out last spring but little, except that they emphasize the hips more than ever. However, you will find all the newest wrinkles shown in the Taft & Penroyer stock. With ten of the best styles to pick from, and expert corset-makers to fit you, you will have no difficulty in being suited.

"W. B." corsets are by one of the best moderate priced corset manufacturers; over 20 styles at from \$1.00 to \$2.50.

"Diana" corsets emphasize figure building; prices range from \$1.25 to \$5.00.

The "X-ray" is the latest "X-ray" model. It is a giraffe intended for giraffe figures; price, \$1.25.

"La Grecoque Lingerie" corsets, \$1.50 to \$3.50.

"T. B." and "L. C." corsets of French manufacture at from \$2.50 to \$6.50 each.

"La Vida"—This, of course, is the premier American corset. The new models are made of whitebone covered with imported cloth and white silk brocade, and are handsomely trimmed. Prices, \$5.00 to \$15.00.

Blankets and Comforters for Cold Winter Nights

There is no place you can buy so much cold weather comfort as cheaply as in the Taft & Penroyer bedding department.

Blankets—We have just received two hundred pairs of three-quarter and double wool blankets, with blue, red or pink borders; regular price \$5.00; sale price, \$4.50.

Comforters—Comforters of sterilized cotton covered with extra quality of satin in handsome patterns; 72x78 inches; \$3.50 value; sale price, \$3.00.

Merrill's sterilized wool comforters which combine a maximum of warmth with the minimum of weight, \$3.50 each.

Heavy down comforters covered with French green, 72x78; special price, \$5.00 each.

Spreads—One hundred white percale spreads in handsome patterns; 91x91, \$2.25 value; sale price, \$1.75 each.

Imported Photograph Frames

A purchase during this sale of French frames will solve many a vexing Christmas problem for you.

Single stamp frames of French gilt, 25c each.
Double stamp frames of oxidized silver, 35c each.
Double stamp frames of French gilt, 50c each.
Single frames of copper bronze with enamel back, 50c each.
Medallion frames of copper, bronze and gold, 50c and 75c each.
Cabinet size frames of nickel silk leather, French copper and green bronze, 15c value; sale price, \$1.00 each.
Panel frames of copper silk or French gilt, \$1.00 each.
Full size cabinet frame of nickel silk, French gilt, copper, green bronze or gold with enamel back, \$1.50 each.

It's Fur Time Already

Don't let the sunshine induce you to put off buying your fur a longer time. Where? Where you can have largest assortment and lowest prices. That's here, of course.

Already the winter furs are here. There are scarfs and neck pieces, coats and four-in-hands in sable, marten, stone marten, black marten, blue squirrel, Siberian squirrel, mink, ermine and fox. Prices follow:

Isabella sable marten scarfs, \$3.50 to \$7.50 each.
Isabella stone marten scarfs, \$3.50 to \$5.00 each.
Black marten scarfs, \$7.50 to \$37.50 each.
Squirrel neck pieces, \$5.00 each.
Ermine neck pieces, \$7.50 to \$13.50 each.
Mink coats, \$12.50 to \$75.00 each.
Sable squirrel coats, \$17.50 each.
Sable marten coats, \$32.50 each.
Sable fox coats, \$125.00 each.

Fall Petticoats Combine Style and Warmth

You want your fall underskirts to have warmth without sacrifice of style and appearance. Here are some of alpaca, satin and moiré that answer your requirements.

Petticoats of fine black satin with deep flounce—knife pleated about the edge, a special value, \$1.25 each.
Underskirt of black French satin with deep flounce trimmed with narrow ruffled pleated, \$2.25 value, \$1.75 each.
Black wool moiré skirts, \$4.00 each.
Black silk moiré skirts, \$3.75 each.
Black and colored alpaca skirts with flare or deep accordion pleated flounce, \$4.00 each.
Black alpaca skirt with silk trim, \$6.00 each.

Pacific Cereal Association
San Francisco

Wood streets states that there is a mistake in the report about Fred Edwards being robbed in his place of business. Mr. Roberts declares that if Edwards lost a lady's gold watch it must have been taken from him in some place outside of the saloon. Mr. Roberts says that he conducts a first class place and keeps within the law in all his dealings.

WILL DISCUSS KEEPING ACCOUNTS

The meeting of the Accountants' and Bookkeepers' Association tonight at the Blake Block will be addressed by C. A. Smith of the Security Bank & Trust Company, who will take for his subject, "The Banker and the Bookkeeper."

"The Association is growing rapidly and the meetings are very interesting. Arrangements have been perfected for quite a number of addresses and practical demonstrations for the ensuing meetings. The presence of the business men of the city demonstrates their interest in this Association and its work. Visitors are cordially welcomed."

NEWS FROM S. P. WISH TO DISCUSS THE PLANS.

ITEMS OF INTEREST TO THE WEST OAKLAND EMPLOYEES.

A representative of the Lapland rail way visited the West Oakland yards of the Southern Pacific Company yesterday for the purpose of making a general examination of the locomotives, rolling stock and to inquire into the Western methods of conducting a railway. He was the guest of Master Mechanic Russell and General Foreman French, who made thorough explanations to him.

"The representative stated that as his railway was close to the Daku oil fields of Russia, he had been specially instructed to secure complete knowledge of the use of oil as a fuel so that if found practicable, oil will be introduced as fuel on the Lapland railway."

ACCIDENT OCCURS.
Last Sunday Fred Green, the ash pit hostler, was backing locomotive 2220 from the pit to the turntable and, not noting that the table was not in its proper position, he backed the locomotive so that the tender plunged into the turn-table pit. Hardly any damage was done, however, and the tender was removed by the steam derrick so that the train was almost immediately resumed.

INSPECTING SOLANO.
The United States inspectors from San Francisco are making an inspection of the Southern Pacific Company's ferry Solano today.

ANOTHER OPERATION.
Tom Evans, an engineer on the Western Division, has gone to the Southern Pacific Hospital at Sacramento to have his arm re-broken. It was found that his arm was not healing properly, so it was decided that it has to be broken again and allowed to knit in proper shape.

PERSONAL MENTION.
W. H. Hentzelman, superintendent of motive power of the Northern Division, has returned to Sacramento after an official visit to the West Oakland yards.

Operator Holliday, who is on a three weeks' vacation, is being relieved by Operator Henney of Tracy. Mr. Holliday expects to visit the Sacramento portion of the State during his absence.

Operator Creighton will relieve W. F. Dunne, who is going East for a month's vacation.

Communications of the motive power department is reported absent on sick leave.

OLD MAN DIES OF INJURIES.

D. L. MILLER PASSES AWAY AT THE RECEIVING HOSPITAL.

D. L. Miller, the old man who was found unconscious and with his leg broken lying along the railroad track near Sixteenth street station at an early hour Sunday morning, died yesterday at the Receiving Hospital. It is thought that the old man must have fallen from an overhead train Saturday night and broken his leg. He rendered him unconscious. In this condition he lay all night with the rain beating upon him. The exposure hastened his death.

LIBERTY COMPANY SCORES A SUCCESS

The initial stock production of "The Palace of the King" at the Liberty Theatre last evening was a triumph in every department from the rise of the first curtain until the final scene had been enacted. From a scenic and artistic standpoint the production is perfect and the members of Bishop's company of players more than do full justice to the various roles in which they are cast. The play itself is a charming romance of the Middle Ages and is based on a novel of Marion Crawford's. An unusual circumstance is noted, that the action of the play is almost entirely in the time occupied in presenting it on the stage. This gives a reality and cohesion to the story that is most entertaining. Mr. Elliott was seen to better advantage as "King Phillip" than for some time past. Lancers Stevens as the hero and the Duke of Burgundy as the villain are also excellent. The play was once again the success of the evening. Miss Kellon is improving at every performance and her "Dona Juana" was as charming as a bit of wit as has ever been seen in Oakland. Miss Lude Arvidson, as her blind sister, was delightful and won her audience from the start. Booth, as the court jester, deserves a word of praise for his piece of character acting. In the Palace of the King he will give every night this week with the usual matinee on Saturday. Next week, "From Frou."

If You Knew

You could be relieved of that periodic or chronic sick headache, such as a bit of relief, would you continue to suffer?

Especially when you are assured of the fact that the remedy is perfectly harmless, and will have absolutely no other effect, except to relieve and cure the pain.

Dr. Miles' Anti-Pain Pills
will bring such relief, quick and sure. That is not all. They prevent and cure all kinds of pain—Neuralgia, Backache, Rheumatism, Menstrual Pains, Stomachache, etc.

Gen. A. Jacobs, merchant, Lima, Ohio, recommends Dr. Miles' Anti-Pain Pills as follows:

"I am anxious that all should know the virtue of these pills. I have used them for years and consider them marvelous in their instantaneous relief of headache and all pains. They leave no disagreeable after-effects."

Sold under a guarantee that first pain will be relieved, or drug will return your money.

25 doses, 25 cents. Never sold in bulk.

SCHOOL BOARD WILL MEET COMMITTEE FROM MERCHANTS' EXCHANGE.

At a meeting of the Board of Education the following routine matters were disposed of.

It was voted to meet a committee of the Merchants' Exchange consisting of Theo. Gier, A. H. Schlueter, W. H. Wellby, George Arper and R. B. Briare, in answer to a written request, to discuss with the committee the advisability of postponing action looking to the opening of the competition for the new school buildings to be erected.

It was stated by Superintendent McClymonds that about ninety plans had been submitted and were open for the inspection at the High School Assembly Hall and at the adjournment of the meeting a number of the directors went there to look over the plans.

The privilege to use the Common School Assembly Hall for the purpose of lectures on the French revolution was granted the University Extension Center. It was stated in the written request that twelve lectures would be given by Professor M. E. Stephens of the University of California.

Supt. McClymonds made a full report to the Board of his observations in the East. The report was complete to the point regarding new school houses.

CHAMPION JEFF AT MACDOUGHER

James J. Jeffries, the champion of the world, is making a big success in his ambition to win the honors of the stage through the medium of "Davy Crockett."

According to the accounts of his production as it is being presented in other cities, the champion is an ideal hero of the legends, and his company is declared to give an exceptionally fine portrayal of the other roles in the play. MacDougher, the play is more of a story and the array of roles and scenes which figure in the setting of the frontiersman's career, the production. When it is known that the play is the story of the champion's life in the West, it is not surprising that the fine book which Jeffries, as a frontiersman, brings in on his shoulder was shot by him in Colorado when he was the champion of President Roosevelt and party.

The President himself suggested that it was such a fine specimen of the deed which Jeffries had done that he should take it with him to the stage. The champion took the book and had it stuffed and it now comes into good use as a prop in "Davy Crockett." The physical culture demonstration in which Jeffries and his partner, Joseph Kennedy, give an illustration of the boxing of three rounds, takes place after the performance and does not in any way form a part of it. That this feature is attached to the production is due to many requests from the champion's admirers, who have never seen him in action. Jeffries appeared last night at the MacDougher Theatre next Tuesday night for one night only and seats are now on sale.

CONVICT'S DAUGHTER.

"The Convict's Daughter," the successful and popular comedy-drama, comes to the MacDougher Theatre next Friday for three nights and two matinees. Seats are now on sale and the prices are 15c, 25c and 50c.

SCHOOL BONDS FOR HAYWARDS

HAYWARDS, Oct. 11.—The school bonds which have already been voted upon and refused twice, arrived yesterday by an almost unanimous vote, there being 12 votes in favor of the issue, and only 9 against. The new school building erected last summer can now be completed. The element of personal opposition disappeared yesterday's election as it did in the School Board.

WILL WIDEN ADELINE SIDI WALKS

There was an ordinance introduced last night widening the sidewalks on Adeline street to fourteen feet.

The Oakland Traction Company was granted thirty days' extension of time to complete its railway on College avenue.

FOR SEAMAN'S REST.

Wallace Bruce Ambury the noted reader and humorist, will give an entertainment at Hamilton Hall tonight under the auspices of the Amador County Endeavor Union, which is preliminary to an entertainment course under the

A Crucial Test

Edwin W. Joy Reports One of the Most Remarkable Cures From Bright's Disease on Record.

"There passed away in this city nearly four months ago from La Grippe a valued friend of mine whose history for the three years previous to his death I know has no parallel. All medical works attest the incurability of chronic Bright's Disease. That there was no question about the genuineness of this case or its seriousness may be known from this: that he was at that time (three years ago) in one of the large hospitals in this city, had been tapped fourteen times, was again filling up and aside from the dropsical accumulations was a mere skeleton awaiting death, the case being considered hopeless by the physicians and his family."

"At that date the Fulton Compound was just beginning to be known and I suggested to one of the company that the patient be put on the treatment, as it would be conclusive. This was done. As the physicians were not likely to believe there was anything in it, he was taken home and the treatment was administered by his family. I left at that time for a trip to Asia and Europe, having no doubt in my mind that on my return, six months later, I would hear that the expected had happened. When I got back you can imagine my astonishment to meet him on the street. His progress, although remarkably slow, was definite and certain. The taglines got further apart and slight improvement month by month was noted until the end of nearly three years, when he was ready to return to his employment and took his former position."

"He later took a violent cold, as above, and a serious case of La Grippe terminated fatally about three months ago. However, the gradual transformation from the edge of death to the capacity for business was either a miracle or else Bright's Disease in its most serious form is now amenable to treatment. If human testimony is worth anything, and I have in this case my own personal observation throughout, then chronic Bright's Disease, even in extreme cases, is now curable by Fulton's Compound. There is no escape whatever from this conclusion and my knowledge is not confined to this case alone, for I have a friend an editor of this city who has fully recovered and I know of others."

"EDWIN W. JOY."

"California and Kearny streets, San Francisco, October 10, 1901."

Edwin W. Joy is a well-known business man on the Coast and can be seen at his store, California and Kearny streets, and he will be willing to give further details.

Bright's Disease and Diabetes are now curable in nearly nine-tenths of all cases. Send literature and list of agents to John J. Fulton Co., 409 Washington St., San Francisco, or send to the address of a sick friend and we will mail pamphlets.

When to suspect Bright's Disease. Weakness or loss of weight; puffiness, ankles, hands or eyelids; kidney trouble after the third month; urine may show sediment, falling vision, drowsiness—one or more of these.

Osmond Bros. Seventh and Broadway; Owl Drug Co. Thirteenth and Broadway; J. H. Smith, South and Broadway; San Francisco Drug Co. Seventh and Willow Sts.

DECLARES BOY STOLE HER MONEY

Mrs. Rice of 211 Fourth street reports to the police that Ernest Wolcott, a messenger boy, to whom she has given a home for several months, has stolen \$40 from her and ran away. She says she had her money hidden in the basement, and the boy must have seen her when she put it there.

COL. HAMILTON DEAD

SACRAMENTO, October 11.—Colonel Edward R. Hamilton, one of Sacramento's oldest and best known citizens and one of its wealthiest men, died this morning. Deceased was for many years the cashier of the Sacramento Savings Bank. He was a native of Meadville, Penn., aged 72 years.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. It cures Catarrh of the bladder, prostate and rectum, of the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

CHEMICAL WORKS BURN IN POURING RAIN.

Nitro and Acid Reducing Plant Are Destroyed on Flemming's Point, North of Berkeley.

BERKELEY, October 11.—In a blaze that lighted the rainy skies for a radius of several miles, the nitro-dyeing house and sulphuric acid reducing plant of the San Francisco Chemical Works on Flemming's Point were destroyed last night at a loss of about \$1,000. The night shift was at work in the nitro plant when the blaze broke out at 11 o'clock.

Flying brands fell on a number of nearby structures but the forces were soon extinguished in the heavy rain that fell incessantly.

BOOSTING NEW COW COLLEGE BUILDING.

CALIFORNIA STATE GRANGE WILL ASSIST IN SECURING LARGE APPROPRIATION.

BERKELEY, October 11.—A prominent organization of the State has undertaken a movement for a new agricultural building for the University.

agricultural department of the University. It advises the erection upon the campus of a capacious and modern building and also the purchase and equipment of a University farm which shall serve the purpose of practical instruction and demonstration and which will moreover constitute an open-air laboratory for investigation and experiment in the various plant and animal cultures and industries.

SAVING COLLEGE CREEK'S BANKS

BERKELEY, October 11.—In anticipation of a heavy rainfall this winter Strawberry creek just west of the housing plant is being solidly embanked with broken rock and concrete.

REQUEST OF BRAZIL. ROME, October 11.—The Pope has been requested by the governments of Brazil and Bolivia to allow Mgr. Toni, the papal nuncio at Rio de Janeiro, to act as president of an arbitration tribunal for the settlement of territorial questions between the two countries.

BERKELEY TRUSTEES IN INTERESTING SESSION.

ONE IS OUT; MANY NEWS WARDS FOR TO ISSUE BONDS WANT PLACE. BERKELEY.

BERKELEY, Oct. 11.—A surprise was sprung at the regular meeting of the Town Board of Trustees last night when Sanitary Inspector Luther T. Hays filed a communication asking that his resignation, tendered several months ago, be accepted. His withdrawal was received with regret, without other comment.

Through a new ordinance, which was adopted, the salary of the Sanitary Inspector was fixed at \$125 a month for the future. It is expressly provided in the new ordinance that the Inspector shall, in the future, devote his time exclusively to the duties of the office, and shall not engage in the plumbing or any other business.

PLUMBING ORDINANCE. The plumbing law was amended in a number of particulars.

HAYS PRESENTS HIS BILL. Sanitary Inspector Hays, resigned, presented a bill for \$245, but his action was taken without paying the claim.

CANDIDATES FOR OFFICE. A raft of candidates appeared for the vacant office of Sanitary Inspector. They were Jerome Annis, G. Grunshaw, George May, John Thompson, and Charles Berwick.

Several ballots were taken as follows: First ballot—Annis, 2; Berwick, 1; Grunshaw, 2. Second ballot—Annis, 2; Grunshaw, 2; May, 1. Third ballot—Annis, 1; Grunshaw, 3; Thompson, 1. Fourth ballot—Annis, 3; Grunshaw, 2.

Fifth, sixth and seventh ballots—Annis, 3; Grunshaw, 2. Eighth, ninth, and tenth, Annis, 3; Grunshaw, 2. Eleventh—Annis, 2; Grunshaw, 3.

The balloting was brought to a conclusion for the night when one of the Trustees became facetious and cast a ballot for Town Attorney Hayne.

SANTA ANA'S INVITATION. An invitation was received from the town of Santa Ana, by the Board of Trustees, to attend the dedication of the new City Hall.

The Ashby Improvement Club requested that Fulton street be opened from Prince street to the southern line and accompanied it with a petition of property owners. Referred to the Street Committee.

Frank M. Wilson, president of the Seaside Park Realty Company, Guy Hyde Chick and Harold W. Fairbanks petitioned that the present grade of Arch street be changed as Daly avenue is to be reopened. Frank M. Wilson petitioned to re-open the latter thoroughfare. The petitioners asked that Arch street be divided into two roadways, an upper roadway to be on the grade of the adjoining property and the lower one to be 8 feet below it. If the property owners on the west side so desired. The whole question was laid over.

ALLSTON WAY OPENING. Attorney Hayne announced that the Standard Soap Company had decided to bring suit against the Town compelling the municipality to declare Allston way from Third street a closed street. He requested that special counsel be appointed to fight the case on behalf of the city on account of the fact that he would be compromised should he lead the litigation on behalf of Berkeley.

COLLEGE PLAYERS EFFECT ORGANIZATION

BERKELEY, October 11.—An organization of the University of California Chess Club has been effected. The officers are as follows: President, R. A. Westbrooke, '05; vice president, R. A. Westbrooke, '05; secretary, J. L. Dobbins, '05; treasurer, E. K. Strong, '06; sergeant-at-arms, Dickson, '06.

BERKELEY, October 11.—Trustee Redmond C. Staats brought up the question of re-districting the town at the meeting of the Town Trustees last night and asked that the Trustees follow the spirit of the law and subdivide the town according to the last registration and keep them as geographically compact as possible. He moved that a committee be appointed to ascertain the population of the town by blocks and report on the situation by January 1. He said that the ward lines at present do not show the true population and that the Third Ward had now twice as many residents as the Fourth and Fifth Wards and consequently the representation in the Board was not fair.

The Board adopted the suggestion and President Rickard and Trustees Staats and Hoff were appointed on the committee to see to the re-districting of the town.

URGENT NEEDS. President Victor Robertson of the North Berkeley Improvement Club called the attention of the Board to the want of a waiting station at the Key Route terminus in East Berkeley, to the wretched telephone system and to the need of a charter convention.

He said that the Key Route and telephone companies owed more than they were giving to the public and something should be done to secure more satisfactory treatment. The Key Route station was offered to the street committee. The telephone situation was passed up to the electric light committee and the question of charter revision to the town attorney.

STREET WORK ORDERED. Resolutions of intent were passed as follows: To grade Ellsworth street from Channing way 100 feet northerly.

To grade, curb and macadamize the west one-half of Adeline street between Pelton street and the south town line. To grade, curb and macadamize the street between Pelton street and the south town line.

To grade, curb and macadamize the crossing of Grant and Arcelon streets. To gutter and macadamize Derby street between Shattuck and Telegraph avenues.

To grade and curb Foster street between College avenue and the east town line. To construct cement walks on north side of Virginia street from Arch street easterly—where not already laid.

To construct cement walks on the westerly side of Regan street between Dwight way and Parker street—where not already laid.

To construct cement walks on the west side of Arch street from Vine street northerly.

To open and widen Derby street from Grove to California streets.

Resolutions ordering the work were passed as follows: For sewer in east side of Shattuck street from Virginia street 240 feet northerly.

For concrete culvert in Cordones Creek across Grove street.

For grading and curbing the crossing of Blake street and McGee avenue and for guttering and macadamizing Blake street from Case tract to California street.

For sewer in Forest avenue from its present easterly terminus to the Berkeley Homestead.

To grade and curb Forest avenue from College avenue to the Berkeley Homestead.

CORDONCES SEWER. W. H. Fayson of El Cerrito and Perryman streets protested against the lines of the district assessors for the sewer in Cordones Creek on the ground that a portion of the land in the district could not be connected with the sewer.

After hearing the opinions expressed by Engineer Huggins and the Town Attorney, he withdrew the protest. John T. Mabey protested against the sewer, declaring that in his property would not be benefited.

BERKELEY, October 11.—Berkeley will go ahead with a revised and highly modified bond election, suited to the conservative spirit abroad in the town and yet abreast of the progressive movement in the community which first initiated the idea for a civic improvement. The Town Trustees last night received a petition from a majority of the Citizens' Bond Committee earnestly requesting that the manual training and street bonds be submitted to the voters, representing an outlay of \$87,000.

The petitioners explained that the recent meeting of the Bond Committee had only a minority of the members present and that the total rejection of all bonds was not favorable to the public in general. There was urgent need for fire department bonds at \$40,000; manual training bonds at \$20,000 and street bonds at \$27,000.

Trustee Staats moved that the Town Attorney Hayne be empowered to make such preliminary arrangements as are necessary for the calling of a bond election for the items stipulated in the petition. The motion was seconded and carried without a dissenting vote.

CHEMICAL WORKS NUISANCE. In reporting the inspection of the West Berkeley Chemical Works, Town Attorney Hayne stated that the members of the special committee have gone through the works and have learned that a number of changes had been made abating the nuisance to a great extent. Hayne had also consulted with Professor E. W. Hilgard of the State University who declared that the chemical residue from the works should be run into the sewer.

Manager Bradford, who has succeeded David Beatty in the management of the works, declared that no residue would be allowed to wash into the yards in the future. He declared that a mistake had been made by the previous manager in allowing the chemical by-product to flow on the ground. Bradford declared that no obnoxious fumes emanated from the works and those that now arise will be carried away by a higher chimney.

The ordinance prepared by the Town Attorney regulating chemical factories was passed to print.

COLLEGE TO HAVE A NEW PAPER

BERKELEY, October 11.—Early next week the first issue of the Y. M. C. A. Essence will make its appearance. This paper will be issued by the college branch of the Y. M. C. A. Harry L. Stoddard, '06, being editor, and N. C. Nelson, '06, and F. S. Wythe, '07, associates.

The paper is to appear monthly and will consist of eight pages 3 1/2 inches square. The regular membership fee will include a subscription to the paper. There will be 500 copies to the issue.

The style of the paper will be similar to the Oakland "Mer." a city Y. M. C. A. publication. It will contain reviews of the various departments, commercial and financial branches, employment bureau, missionary work, and in general all work of interest to members of the association.

This publication is the first of its kind to be undertaken by a college Y. M. C. A. and is but another one of the forward initiative steps the California Association is taking toward making this the most popular association in the country.

DRIVER PINNED BETWEEN ONCOMING TRAINS.

H. C. Kidder, a Berkeley Contractor, Has His Wagon Demolished Beneath Him.

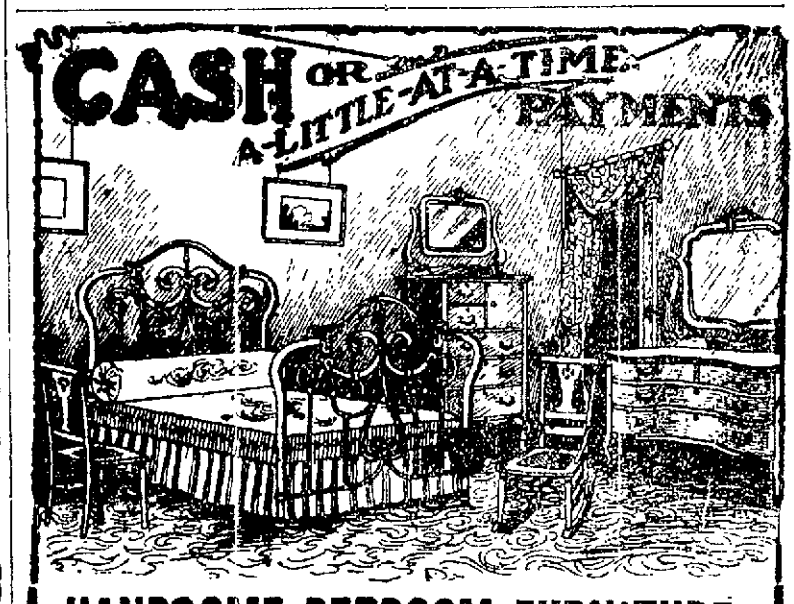

BERKELEY, October 11.—While driving a wagon across the local tracks of the Southern Pacific Company this morning at 7:45 o'clock, H. C. Kidder, of the firm of Kidder and McCullough, was run down by a freight train.

While Kidder's pony could not be seen by the engineer of the freight train, Len Clark, the engineer of the local train, witnessed his plight and blew his whistle and brought his train to a standstill and further damage was averted.

COLLEGE LIBRARY PREPARES EXCHANGES

BERKELEY, October 11.—The semi-annual shipment of University publications to foreign educational institutions for exchange is now being prepared at the library.

This is the second shipment in 1904, the publication being those issued within the last six months. An exceptionally large number of publications has been issued during the past term, including four University bulletins, one University Chronicle and numerous agricultural, pathological, geological, anthropological, zoological, botanical and various bulletins.

HANDSOME BEDROOM FURNITURE.

Everything to make your room look comfortable and homelike.
